Run report options--GRAY LINE

Select criteria

DX >= MIN_MI AND (ABS(TIMEDIFM(EVENT,SUNRISE)) <= MAX_DIF OR
ABS(TIMEDIFM(EVENT,SUNSET)) <= MAX_DIF) AND SUNRISE <= "2400"

Counting records to print...

Output to: ☐ Printer Windows Default (Hp Officejet J4500 Se) ☐ Screen
☐ Printer dump to file ☐ ASCII text file

1 1 Copies

1 Beginning page 9999 Ending page All

☐ Close after printing?

Export report input data
CSV with header Go

☐ Edit after export?

LOGIC's Gray Line map is neat to look at, but this report will do more than any map to help you work gray line DX.
It shows all locations that are on or near the gray line how close they are to the gray line
